NATIONAL SERVICE SCHEME (NSS):

The National Service Scheme (NSS) is an Indian government-sponsored public service program conducted by the Ministry of Youth Affairs and Sports of the Government of India. Popularly known as NSS, the scheme was launched in Gandhiji's Centenary year in 1969. NSS is an extension dimension to the higher education system to orient the student youth to community service while they are studying in educational institutions. It is being implemented by the Ministry of Youth Affairs and Sports, Government of India.

AIMS & OBJECTIVES OF NSS:

The main aim of NSS is to develop the personality of students through Community service. The objectives of NSS are:

- To understand the community in which they work
- To understand themselves in relation to their community
- To identify the needs and problems of the community and involve them in problem solving process.
- To develop among themselves a sense of social and civic responsibility
- To utilize their knowledge in finding practical solution to individual and community problems
- To develop competence required for group-living and sharing of responsibilities
- To gain skills in mobilizing community participation
- To acquire leadership qualities and democratic attitude
- To develop capacity to meet emergencies and natural disasters
- To practice national integration and social harmony

AWARENESS PROGRAMME ON USING HELMETS

Sri Indu Institute of Engineering and Technology – NSS cell has organized awareness programme on Helmet Using in our college campus on 27th September, 2019. The programme has started with our Principal Dr. I. Satyanarayana with his introductory remarks. In this programme all Heads of the departments, staff Members and students have participated.

A REPORT ON AWARENESS ON USING HELMETS:

The compulsory helmet rule being implemented in the city has received mixed response from Pundits. Since many are still avoiding the use of helmets, students from the SIET have decided to lead the way through a series of initiatives. In recent times, lively arguments, supporting and opposing helmet use in two-wheeler riding, have made it a popular issue for public debate. Those who support its use, consider the helmet an insurance against head injuries and possible death, whereas the others, while not disputing its ability to save lives, oppose its use on the basis of the unhealthy side-effects it creates. However, any debate on the merits and demerits of helmet use should be with due regard to its context and situation.

AWARENESS PROGRAMME ON LED BULBS

Sri Indu Institute of Engineering and Technology – NSS cell has organized awareness programme on LED Bulbs in our college campus on 27th January, 2020. The programme has commenced with our Principal Dr. I. Satyanarayana, with his introductory remarks. In this programme all heads of the departments, staff Members and students have participated.

A Report on Awareness on Led Bulbs

Taking care of the environment is a responsibility that everyone should feel accountable for. Most of us are already aware of environmentally friendly processes such as recycling to minimize the amount of waste we produce and reduce our carbon footprint. However, a lot of people are unaware of new and upcoming technologies that we can use to help reduce carbon emissions. A good example of this is LED lighting; LED lights are up to 80% more efficient than traditional lighting such as fluorescent and incandescent lights. 95% of the energy in LEDs is converted into light and only 5% is wasted as heat. This is compared to fluorescent lights which convert 95% of energy to heat and only 5% into light! LED lights also draw much less power than traditional lighting; a typical 84 watt fluorescent can be replaced by a 36 watt LED to give the same level of light. Less energy use reduces the demand from power plants and decreases greenhouse gas emissions which provide many environmental advantages.

RAINWATER HARVESTING AWARENES PROGRAMME

Sri Indu Institute of Engineering and Technology – NSS cell has Organizing “ awareness programme on rain water harvesting ” in our college campus on 10th July.2019 with great fervor .The programme has started with our Principal Dr. I. Satyanarayana. For this programme, all heads of the departments, staff Members and students have participated/

A REPORT ON RAINWATER HARVESTING AWARENES PROGRAMME

Rainwater harvesting (RWH) is the collection and storage of rain, rather than allowing it to run off. Rainwater is collected from a roof-like surface and redirected to a tank, cistern, deep pit (well, shaft, or borehole), aquifer, or a reservoir with percolation. Dew and fog can also be collected with nets or other tools. Rainwater harvesting differs from storm water harvesting as the runoff is collected from roofs, rather than creeks, drains, roads, or any other land surfaces Its uses include watering gardens, livestock, irrigation, domestic use with proper treatment, and domestic heating. The harvested water can also be committed to longer-term storage or groundwater recharge.

A clean India would be the best tribute India could pay to Mahatma Gandhi on his 150 birth anniversary in 2019,” said Shri Narendra Modi has launched the Swachh Bharat Mission at Rajpath in New Delhi. On 2nd October 2014, Swachh Bharat Mission was launched throughout length and breadth of the country as a national movement. While leading the mass movement for cleanliness, the Prime Minister exhorted people to fulfill Mahatma Gandhi’s dream of a clean and hygienic India. Shri Narendra Modi himself initiated the cleanliness drive at Mandir Marg Police Station. Picking up the broom to clean the dirt, making Swachh Bharat Abhiyan a mass movement across the nation, the Prime Minister said people should neither litter, nor let others litter. He gave the mantra of ‘Na gandagi karenge, Na karne denge.’ Shri Narendra Modi also invited eminent personalities to join the cleanliness drive and requested each of them to draw nine more into the initiative.
