## GREEN CAMPUS INITIATIVES POLICY

Sri Indu Institute of Engineering and Technology, one of the best engineering colleges in Telangana, has always taken a green agenda. Despite being primarily a technological institution, it has shown remarkable awareness in maintaining an eco-friendly campus. On visiting the Campus, one can experience the aesthetic and elegant buildings, splendid lawns, spacious sports grounds and lush green environment conducive for teaching-learning process.

### INSTITUTIONAL INITIATIVES

#### **RESTRICTED ENTRY OF AUTOMOBILES:**

The college operates a fleet of 16 buses covering each corner of Hyderabad to facilitate the students and staff. The institute encourages the staff and students to use the college transport instead of their own vehicles for safety, security, fuel conservation and to reduce environmental pollution. The college buses are checked for pollution by the authorized agency. The vehicles owned by faculty or students with pollution check stickers are permitted into the campus. For two wheelers or four wheelers, security measures are mandatory.

#### **USE OF BICYCLES:**

Students and staff coming from nearby villages also prefer bicycle as a mode of transport for attending the college. It is environment friendly and prevents pollution

#### **PEDESTRIAN FRIENDLY PATHWAYS:**

Vehicle parking space is provided at the main entrance of the college campus. As the campus is vehicle free with some exceptions, students and staff experience comfort walking through the pedestrian friendly pathways. The internal roads are lined with trees and solar lights and they are properly maintained by the campus maintenance committee.

#### **BAN ON USE OF PLASTIC:**

Single-use plastic items such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among staff and students through orientation and display boards in the premises. To restrict the use of plastic, measures have been taken to replace plastic tea cups and glasses with steel glasses in the canteen. The staff and students are informed to use steel or copper water bottles instead of plastic bottles.

#### **LANDSCAPING WITH TREES AND PLANTS:**

Landscaping of the college is worth seeing and reflects aesthetic sense. The institute has a canopy of trees and plants to make the environment pollution free to safeguard the health of all the inmates. The lawns and the trees provide shade and beautiful ambience. Utmost care is taken to develop and maintain green landscaping by trained gardeners and supervisor. The construction, maintenance and beautification committee constituted in the college looks after the development and maintenance of the greenery in the campus.

## CIRCULAR

It is hereby informed to all the staff and the students that our institute has decided to make our campus **Plastic Free**.

These are the steps we are following to make our campus plastic free.

- We ban the use of single -use plastics in canteen as well as in our college premises.
- Mandate all the students to avoid bringing non-bio-degradable plastic items to the institution.
- Encourage the students to sensitize their respective campus about harmful effects of plastics and make the campus plastic free.
