Whereas, **SRI INDU INSTITUTE OF ENGINEERING & TECHNOLOGY**, Sheriguda (V), Ibrahimpatnam, (hereafter called as Engineering College) at its various engineering Programmes are charged with responsibility of training technical and scientific manpower in various front-line areas of importance for the Nation and is also contributing to the rapidly growing scientific and technological knowledge and professional excellence in Science & Technology by undertaking industrial consultancy.

WHERE AS, **PHYSITECH ELECTRONICS**, (hereafter called as INDUSTRY) is engaged in manufacturing of VARIOUS ELECTRICAL & ELECTRONICS DEVICES, research, design and development and consultancy in the field of DESIGNING and related fields.

WHEREAS, both **SRI INDU INSTITUTE OF ENGINEERING & TECHNOLOGY**, Sheriguda (V), Ibrahimpatnam, and **PHYSITECH ELECTRONICS**, now

- Recognizing the importance of training the Teaching Staff, Students and Industry Employees of various levels and research and development in the areas DESIGNING & PRODUCTION.
- Appreciating the need for creation of large reservoir of qualified manpower in all fields related to ELECTRONICS.
- Desiring to club their efforts by pooling their expertise and resources.

INTEND to form a nucleus for promoting excellent quality manpower in the fields of engineering with special emphasis on CIRCUIT DESIGNING and related fields etc.

NOW, THEREFORE, in consideration of the mutual promises made herein and of good and valuable consideration, the receipt and sufficiency of which both **SRI INDU INSTITUTE OF ENGINEERING & TECHNOLOGY**, Sheriguda (V), Ibrahimpatnam, and **PHYSITECH ELECTRONICS** hereby acknowledge, **SRI INDU INSTITUTE OF ENGINEERING & TECHNOLOGY**, Sheriguda (V), Ibrahimpatnam And **PHYSITECH ELECTRONICS** hereby agree to sign a memorandum of understanding (MoU).

ARTICLE-I: SCOPE OF THE MOU

This MoU details the modalities and general conditions regarding collaboration between **SRI INDU INSTITUTE OF ENGINEERING & TECHNOLOGY**, Sheriguda (V), Ibrahimpatnam, and **PHYSITECH ELECTRONICS** for enhancing, within the country, the availability of highly qualified manpower in the areas of CIRCUIT DESIGNINGS without any prejudice to prevailing rules and regulations in **SRI INDU INSTITUTE OF ENGINEERING & TECHNOLOGY**, Sheriguda (V), Ibrahimpatnam, and **PHYSITECH ELECTRONICS** without any disregard to any mechanism evolved and approved by the

offer to the entire community) a number of factors that have led to customer dissatisfaction that we would like to address. However, the feedback being given by the entire community, the PCO, actual support from our customers, as well as the real complaints received from those who do not use our manufacturing facilities, are critical to the subject being discussed.

Current conditions at the plant

21. The state of operations at the manufacturing facility prior to the early 1990s was very poor. The plant was in a state of disrepair and the machinery was old and unreliable. It was very difficult to maintain and the quality of the product was poor. The plant was also very inefficient and the cost of production was high.

The development and manufacturing of the world's first and only fully integrated, computer-aided design (CAD) system for the design and construction of buildings.

FEATURES

- The only CAD system for the design and construction of buildings.
- The only CAD system for the design and construction of buildings that is fully integrated with the building's structural, mechanical, electrical, and plumbing systems.

A fully integrated CAD system for the design and construction of buildings. The system includes all the tools and techniques needed to design and construct a building, from the initial concept to the final construction documents. The system is fully integrated with the building's structural, mechanical, electrical, and plumbing systems, allowing for a complete design and construction process.

- 16. The government should be more involved with the development of the national curriculum of the schools of the state. Some people think that the government should do this to guarantee quality teaching in the primary schools and the secondary schools of the state. (10)
- 17. The government should encourage children to play sports. In the future that program will be successful and there will be more fit and healthy children. Some people, however, argue that the government should guarantee a minimum number of hours of physical education in the schools to make sure that all children are fit. On the other hand, some people think that parents should be responsible for their children's education, including their physical education. Some people think that the government should encourage parents to make sure that their children are physically fit by providing facilities for sports in the schools. (10)

QUESTION
 A 2000 kg car is moving at 10 m/s. It is brought to rest by a force of 1000 N. How long does it take to stop?

ANSWER
 20 s

EXPLANATION
 Use Newton's second law: $F = ma$

Quantity	Value
Mass (m)	2000 kg
Initial velocity (u)	10 m/s
Final velocity (v)	0 m/s
Force (F)	-1000 N
Acceleration (a)	-0.5 m/s ²
Time (t)	20 s

Final Recommendations of the Working Group on the Management of Hypercalcaemia in Breast Cancer: A Consensus Document (The Working Group on Hypercalcaemia in Breast Cancer)

ABSTRACT

The main findings of the Working Group on the Management of Hypercalcaemia in Breast Cancer are: (1) the importance of identifying patients at risk of hypercalcaemia; (2) the importance of preventing hypercalcaemia; (3) the importance of treating hypercalcaemia; (4) the importance of monitoring patients with hypercalcaemia; (5) the importance of patient education; (6) the importance of patient support; (7) the importance of patient follow-up.

Hypercalcaemia is a common complication of breast cancer, and is associated with a poor prognosis. The Working Group on Hypercalcaemia in Breast Cancer has developed a consensus document on the management of hypercalcaemia in breast cancer. The document is intended to provide a guide to the management of hypercalcaemia in breast cancer, and to help clinicians to identify patients at risk of hypercalcaemia, to prevent hypercalcaemia, to treat hypercalcaemia, to monitor patients with hypercalcaemia, to educate patients, to support patients, and to follow-up patients.

- 12) **Authorial intention:** Is a writer's intent or purpose in writing a text? It is a complex issue that involves the author's personal beliefs, the cultural context, and the audience. The author's intention can be inferred from the text itself, but it is often difficult to determine. Some scholars argue that the author's intention is irrelevant to the interpretation of a text, while others believe that it is essential. The author's intention can be a useful tool for understanding a text, but it should not be used to limit the reader's interpretation.
- 13) **Context and background of a text:** Context refers to the circumstances in which a text was written, including the author's life, the time and place, and the audience. Background refers to the cultural, historical, and social conditions that influenced the text. Understanding the context and background of a text is essential for a full understanding of its meaning and significance.
- 14) **Form and structure:** Form refers to the physical characteristics of a text, such as its length, style, and organization. Structure refers to the way in which the text is organized, including the sequence of events, the use of flashbacks, and the development of characters. Understanding the form and structure of a text is essential for understanding its meaning and significance.
- 15) **Style and language:** Style refers to the author's choice of words, phrases, and sentences. Language refers to the words and phrases used in a text. Understanding the style and language of a text is essential for understanding its meaning and significance.
- 16) **Genre and conventions:** Genre refers to the type of text, such as fiction, non-fiction, or drama. Conventions refer to the rules and expectations that govern a particular genre. Understanding the genre and conventions of a text is essential for understanding its meaning and significance.
- 17) **Reader response:** Reader response refers to the way in which a reader interprets and reacts to a text. It is a subjective experience that is influenced by the reader's own beliefs, experiences, and expectations. Understanding reader response is essential for understanding the meaning and significance of a text.
