INSTITUTE VISION & MISSION

Vision:

To become a premier institute of academic excellence by providing the world class education that transforms individuals into high intellectuals, by evolving them as empathetic and responsible citizens through continuous improvement.

Mission:

- **IM1:** To offer outcome-based education and enhancement of technical and practical skills.
- **IM2:** To Continuous assess of teaching-learning process through institute-industry collaboration.
- **IM3:** To be a centre of excellence for innovative and emerging fields in technology development with state-of-art facilities to faculty and students' fraternity.
- **IM4:** To Create an enterprising environment to ensure culture, ethics and social responsibility among the stakeholders.

CO-PO mapping Justification

PO1. **ENGINEERING KNOWLEDGE:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

PO2. **PROBLEM ANALYSIS:** Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

PO10. **COMMUNICATION:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, give and receive clear instructions.

PO12. **LIFE-LONG LEARNING:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological

High (3): PO1, PO2, PO10, PO12.

Explanation:

- Develops listening skills in the LSRW skills approach to language and improve pronunciation
- Necessary training in listening, the speech of people of different backgrounds and regions
- Develops an awareness in the students about writing as an exact and formal skill
- To equip them with the components of different forms of writing, beginning with the lower order ones.
- Writing sentences
- Use of appropriate vocabulary
- Paragraph writing
- Coherence and cohesiveness
- Narration / description
- Note Making
- Formal and informal letter writing
- Describing graphs using expressions of comparison

Medium (2): --Nil— **Low (1):** --Nil—

By understanding the basic concepts the components of different forms of writing, beginning with the lower order ones.

- Writing sentences
- Use of appropriate vocabulary
- Paragraph writing
- Coherence and cohesiveness
- Narration / description

b) Read the following paragraph and answer the questions that follow.

Last summer, we reviewed Starlink RV, a version of the satellite internet service that promised users access from pretty much anywhere on their continent. Now, it has been rebranded as Starlink Roam, available in either a regional access flavor for \$150 per month or for global use anywhere the service is available for \$200 per month. As with the RV package, users can choose either a portable antenna for \$599 or one intended for in-motion use for \$2,500. Previously, you could only travel with Starlink's satellite dish (nicknamed Dishy) within the same continent. Starlink markets the rebranded subscription as a way for customers to use Starlink in "locations where connectivity has been unreliable or completely unavailable." You can also pause and unpaue the subscription whenever you want, while getting billed in one-month increments. In February, users (including those located outside of Starlink's coverage areas) began receiving messages about a new "global roaming service," although, at the time, we didn't know it would be replacing Starlink RV completely.

There still aren't too many details about Starlink's Roam, but judging by the email it sent to customers last month, it doesn't sound entirely reliable. "Starlink's typical high speed, low-latency service intermixed with brief periods of poor connectivity, or none at all," it said. "However, this will improve dramatically over time." The FAQ page for Starlink Roam states that the global service "can only be ordered" in the countries on the Starlink availability map. It's unclear, however, whether service will still be available in the countries where Starlink's technically not allowed. Starlink's still waiting on regulatory approval from some countries, including India, Pakistan, and Cambodia, while Elon Musk said in an interview with the Financial Times that the Chinese government has "made clear its disapproval of his recent rollout of Starlink." Starlink already has its \$5,000 per month plan for anyone looking to get access to the internet while at sea, and it also made its Flat High Performance dish available for in-motion use on RVs and other vehicles. The company's announcement comes just one day after Amazon revealed its Project Kuiper customer terminals.

- i) Give a suitable title for the passage and explain your choice.
ii) Write a short blurb of the given passage in 100 words for quick reading at a glance.
